Cleaning products are important, but they are only half the equation!

As winter draws upon us, so does cold and flu season. Keeping your centre hygienically clean becomes even more important to prevent the spreading of bacteria. Many services resort to disinfecting every surface in an attempt to stay "clean" however the products alone will not keep them at bay.

Caring Corner

This month's Caring Corner is dedicated to Fin Park. Fin attends A Montessori in Mudgeeraba and was diagnosed with Leukaemia earlier this year. The treatment of Leukaemia includes blood transfusions in Brisbane. The family wish to raise awareness about how valuable your blood donations are. As blood donors, the Suppleyes team know firsthand how important and easy it is to donate. Suppleyes would like to assist the family by donating a percentage of our sales in June to the Park family. You can help them too by simply donating blood at your nearest Red Cross Donor Centre or choosing to buy from Suppleyes. The more you spend, the more we can help him."
